POLICY PROHIBITING SEXUAL HARASSMENT

CSB's policy, in accordance with providing a positive, discrimination free school and work place, is that sexual harassment is unacceptable conduct that will not be condoned by any means. Any student or employee found guilty will be subject to disciplinary action up to and including dismissal.

PHYSICAL DEMANDS OF PRACTICING THE BARBERING PROFESSION

The majority of your time as a professional Barber will be spent on your feet. It is of the utmost importance for you to learn ways to prevent fatigue, improve your personal appearance, and maintain your health.

Good health is required for the successful practice of barbering. A Barber should preserve his/her health by following rules of healthful living i.e.: cleanliness, exercise, balanced diet, adequate sleep, oral hygiene, good posture, etc.

The Barber should give his/her feet daily care. For comfort and to help maintain good posture, he/she should wear well-fitted low-heeled shoes.

SAFETY REQUIREMENTS FOR THE BARBER

To protect individuals and public health a Barber should know when, why and how to use sterilization practices. The Barber must know the laws, rules, and regulations that govern cosmetology and comply with them. By such compliance he/she is contributing to the health, welfare, and safety of the community.

Sterilization and sanitation is important to the Barber because this deals with methods used to prevent the growth of germs or to destroy them entirely, particularly those that are responsible for infections and communicable diseases.

The use of certain chemicals by a Barber involves certain dangers, unless safety measures are taken to prevent mistakes and accidents. The Barber should always read manufacturer's directions and follow the directions on the labels and accompanying literature when using chemicals. The following are some general safety precautions to be observed by the Cosmetologist in the use of chemicals:

- Purchase chemicals in small quantities and store in a cool, dry place
- Carefully measure chemicals
- Keep all containers labeled and covered
- Do not smell the chemicals
- Keep a complete first aid kit on hand
- Wear protective gloves
- Always wash hands after the use of chemicals

The Barber must acquire a basic knowledge of modern chemistry. It is an essential requirement for an understanding of the various products and cosmetics being used in the salon. It is important that Barber understands these products and learns how to use them for the maximum benefit and safety of the patron.

ACADEMICS

DEFINITION OF A CLOCK HOUR

A Clock Hour is defined as a minimum of 50 minutes, but not to exceed 60 minutes of instruction.

MEASUREMENT OF ACADEMIC STANDARDS OF PROGRESS

Standards of academic progress are measured at prescribed increments during each training program according to the schedule defined below:

The **BARBER** program's Standards of Progress are calculated as described below:

SAP Checkpoint	Minimum Passing Grade	Minimum Attendance
450 Scheduled Hours	3.0 GPA	360 Actual Hours= 80%
900 Scheduled Hours	3.0 GPA	720 Actual Hours= 80%
1,075 Scheduled Hours	3.0 GPA	860 Actual Hours= 80%

ATTENDANCE PROBATION

If a student's cumulative attendance record falls below 80%, a consultation with a school official will be scheduled. If the problem warrants, the student may be placed on attendance probation. The purpose of probation is to reinforce the seriousness of the situation and to provide the motivation to correct the problem and avoid placing graduation in jeopardy. If a student is repeatedly placed on attendance probation and is therefore clearly in danger of not meeting the 80% attendance requirement for graduation, termination proceedings will be considered.

ACADEMIC PROBATION

A student, whose cumulative grade point average is less than 3.0 at the end of a grading period, is placed on academic probation. If a student fails to achieve a 3.0 cumulative grade point average for the next evaluation period or for any evaluation period in which the student is on probation, the student may be terminated for lack of satisfactory academic progress, at the discretion of the Campus Director. A student will be removed from probation upon achieving or at least a 3.0 cumulative grade point average. If a student on academic probation achieves satisfactory progress for the subsequent evaluation period but does not achieve the required cumulative grade point average, the student may continue on academic probation for one more evaluation period. The enrollment of a student who fails to achieve overall satisfactory academic progress for their program at the end of two successive probationary evaluation periods may be terminated. If a student's cumulative grade average falls below the minimum GPA or if the student's credits attempted exceed the limits as outlined above, a consultation with a school official will be scheduled. If it is decided to allow the student to continue in school, the student will be placed on academic probation for the next grading period. At the end of the probationary period, the student should be meeting the minimum standards for satisfactory progress. If not, the student is subject to dismissal. Only under very extenuating circumstances will the student's probation be extended and only at the express approval of the Campus Director.

TERMINATION

A student may be terminated from classes or from the program for various reasons, both objective and subjective, including the following:

- Failure to comply with Academic Probation Policy
- Failure to comply with Attendance Probation Policy
- Non-Payment
- Conduct, at the discretion of the Campus Director or his/her appointee
- Failure to follow the Rules of Conduct.

MAKE-UP WORK

Any student who misses class time may be required to do make-up work by the instructor, before or after scheduled classes. One Saturday a month will be reserved for make-up work. Students must elect in increments of 3 hours which schedule will be attended. 9am-3pm, 9am-12pm, or 12pm-3pm. The instructor will be available to spend additional time with students when this is deemed necessary by the instructor. An additional tuition charge of \$30 per hour may be applied to a student's account if a student is absent during a required practical/clinical and the instructor is required to make special, individual testing arrangements for that student.

If class time is missed because the school is closed due to adverse weather conditions or other unusual circumstances, every effort will be made by the school to schedule make-up time. When necessary, additional classes may be scheduled on Saturdays. Should additional hours be scheduled during these hours due to cancellations of previous classes, it is the responsibility for students to attend these make up sessions in order to satisfy the hourly requirements of the Barbering Program. A student must attend 1,250 hours to be eligible for graduation in the Barber Program.

ATTENDANCE REQUIREMENT

Attendance is taken daily in each class and every absence is recorded. To calculate attendance, Actual Hours (In attendance) are divided by Scheduled Hours (Eligible to attend). As an example, if a student is supposed to attend 30 hours/week and has been in the course for three weeks, Scheduled Hours are 120. If that same student has missed 4 hours of class, Actual hours equal 116. Therefore, the attendance percentage is 96.7%. Only those hours attended may count towards Actual Hours. In order to graduate, a student must have no less than an 80% cumulative attendance percentage.

DRESS CODE

Students at CSB are expected to develop the skills, techniques, and habits that will enable them to secure successful employment. One important habit is maintaining a professional appearance including proper professional dress. CSB has established a standard dress code for all students to maintain a professional atmosphere, Students not in dress code may be asked to leave school to change, which will also result in a loss of hours. The dress code is follows:
